

# Manuel “Manny” Swingtail

Motive: Repair the broken city of New York with the newest generation of Cranes, Isaac. This governor of NYC has tirelessly worked to get himself into power but now seems unable to get the upper-hand on either Jack Dragon or Richard Sawtooth.

Process: By working with Isaac Crane and Samantha Shell he tries to remove the corrupt politicians from power and take the place of Sen. Sawtooth.

Risk Level: Medium. In order to keep safe from Dragon and Sawtooth he has amassed some protection as governor but whether or not he's willing to call the order to fire has yet to be seen.

Assistance: Assisting him will further the cleaning of the city and allow Isaac to continue his father and grandfather's legacy.

Benefit: Highly beneficial as a seat in power and a bit of a liaison between the low ranking Isaac and the high ranking Jack and Sawtooth.
